

CARING FOR THE CAREGIVER – 2010 WORKSHOP LEADERSHIP STRATEGIES FOR YOUR MEDICAL CAREER

Saturday March 6, 2010 - 9:00 a.m. to 3:00 p.m.

Sponsored by DOCMS

Stedman Auditorium, Center for Living, Duke University

Healthcare reform triggers concerns for physicians- what are the implications for their patients, practices and personal lives? Working with colleagues on policy changes, adjusting to new technology or changes in family life affects each physician differently. Many men and women want to focus on their career development, identify specific issues that need to be resolved and create a plan for doing so. The challenge is finding the time.

The purpose of this workshop is to provide an opportunity for you to identify key concerns and address one or two issues in detail. The approach is based on the assumption that credible, short- term gains will support strategies for longer- term initiatives.

Workshop Agenda

Morning session- Assessing your career development

- Evaluate commitments in relation to professional and personal goals
- Target specific areas for change
- Plan to engage others in your process

Afternoon session- Leadership strategies for working with others

- Find common ground for collaboration
- Learn skills for negotiating or resolving differences without damaging relationships
- Select the right strategy for your specific issue

Presenters

Dr. Kristine Sullivan

Kristine serves as director of program development, faculty and mentor for physician leadership programs sponsored by medical societies in North Carolina, Tennessee and Georgia. Teaching for Duke University includes courses for physicians, scientists, engineers and Fuqua's Week-end Executive MBA program.

Kacie Wallace JD, LLM

As an attorney and mediator, Kacie specializes in conflict management and resolution. She teaches courses in mediation and negotiation for NCCU School of Law, Duke University and the Duke UNC Rotary Center for International Studies in Peace and Conflict Resolution.
